KN95,N95 EDGE CLOSE/ WELTING ULTROSONIC MACHINE

MB9017A

KN95, N95 edge close/welting ultrasonic machine . This unit perfectly works in semi-auto mode on KN95,N95 mask edge close/welting by high power & high frequency ultrasonic gun for stable result.

HIGHLIGHTS

- Output power adjustable to match different power usage requirement.
- Output frequency adjustable to match different frequency usage requirement.
- IMB special-designed control box .
- Production counter equipped in screen panel to offer real time observation of machine present production for easy salary calculation.

PRODUCTIVITY

Average production:
10 pcs / minutes / machine
6000 pcs / 10 hours / machine

TECHNICAL DETAILS

- High power output:
2000W.
- High frequency output:
20.000HZ.
- Digital touch screen panel for easy setting.
- Digital counter equipped.
- Power output & frequency output real time change to match different usage purpose.
- Power supply:
220 Volt, mono-phase 50/60 Hz
Size and weight of the machine:
125*60*130CM(L*W*H) – 70Kg
